

IMPORTANT INFORMATION ABOUT YOUR UNIFORMS FROM ADMIRAL UNIFORM SERVICE

Personalized Garments

Each garment is identified **personally** to you with a **code tape**. The combination of numbers and letters identifies your account and that route serves you. The number to the far right is the employee number. For additional identification, we include each name (or initial and last name).

A Double Inventory Plus One!

If you receive five clean uniforms each week, a total of eleven* are identified with a code tape. Then on your clean uniform delivery day:
5 soiled uniforms are picked up
5 clean uniforms are delivered
1 uniform is being worn

On your initial delivery, you receive six uniforms. On each following delivery, you'll receive five clean, personally coded uniforms (as long as five soiled garments are picked up on your clean uniform day).

** If you receive 6 uniforms a week, your total inventory is 13; if you receive 4 uniforms a week, your total inventory is 9.*

Accurate Counts

Your garments are counted each week and recorded on our Garment Check Sheet. The Route Service Representative checks the clean garments against the numbers listed for each employee before that week's delivery.

This helps ensure you receive back what you turn in each week.

Repairs

We use a **double check system** to maintain your garments. First, we make every effort to find and repair any damaged garment as it goes through our plant. Second, we ask you to help us by attaching a **repair tag** to any garment that needs attention. Your Route Service Representative will make sure the repair tags are readily available.

Real Value

The rental uniforms we provide are specifically constructed for **durability** and **appearance**. They are better made than uniforms found in retail stores and best of all, they're picked up, cleaned, and delivered back to you for about the price of a donut and a cup of coffee a day.
